ST. IGNATIUS COLLEGE

VAN NESS AVENUE, BET. HAYES and GROVE,

SAN FRANCISCO, CAL.

THIS institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer Degrees and Academical Honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this institution is to give a thorough

ENGLISH, CLASSICAL, MATHEMATICAL AND PHILOSOPHICAL

EDUCATION

IT IS INTENDED FOR DAY SCHOLARS ONLY.

The course of Studies embraces the Doctrine and Evidences of the Catholic Religion: the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Book-keeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy. The Study of the **French, German and Spanish Languages and Practical Telegraphy is optional.**

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. **Its object is to qualify the pupil for the higher studies.**

This Institution, provided with a full staff of Professors, presents the highest advantages for **the mental and moral training of the students.**

The College having been removed in January, 1880, to its new and permanent location in one of the most eligible parts of the city, extends over a whole square, bounded by Grove, Franklin and Hayes streets and Van Ness Avenue, and possesses the most ample accommodations and improved **conveniences for 1,200 students.**

The new College Buildings are divided into three principal stories for the three separate departments: the preparatory; the Literary and Commercial; and the Philosophical and Scientific.

Besides the required Reception Rooms and Offices, large and lofty halls and stairways: several Library Rooms and Debating Halls; distinct play-grounds with covered walks and porticoes for the larger and smaller students, the buildings contain a full complement of very capacious school-rooms, well lighted and ventilated, and furnished with the most approved modern conveniences. They possess also a large and well appointed Chapel for the Religious Exercises, and a College Hall 100x 115 feet internal dimensions, with spacious platform and stage suitably furnished and arranged for scholastic Exhibitions, Dramatic representations, lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry: **a Chemical** laboratory and an extensive cabinet of Physics; rooms for qualitative and quantitative Analysis; Engine-rooms with Magneto-Electric machines; Battery rooms; complete Telegraphic stations; rooms for preparations, balances, spectroscopic studies, and other scientific experiments and investigations: Museum of Mineralogy, Geology and choice collections of natural objects and curiosities of different **kinds; and it is furnished with a very large and choice collection of Philosophical and Chemical Ap**paratus ordered from the best constructors of Europe and America, and with all that is necessary **for Lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.**

By frequent additions of whatever can be supplied by the best modern inventions both at home and abroad, this Department has attained a very high degree of completeness and efficiency well **calculated to afford to advance students a most valuable opportunity of acquiring a thorough scientific training and education.**

STUDENTS ARE RECEIVED AT ANY TIME DURING THE SEASON FROM JULY TO MAY.

The Institution is open to the Public, and Visitors are always welcome.

For further information apply to the President.
